WORK EXPERIENCE

National Service Personnel | Access Bank PLC

November 2024- September 2025

- Operating and maintaining the Oracle Flexcube core banking system.
- Running End-of-Day (EOD), End-of-Month (EOM), and End-of-Year (EOY) batch processes.
- Performing and verifying system backups to ensure data integrity and disaster recovery readiness.
- Coordinating with vendors for patch updates, bug fixes, and enhancements.
- Provide support for user issues and requests related to the core banking system.

INTERN | Ghana Water Company Limited

October 2023- December 2023

- Providing technical assistance to employees experiencing hardware, software and network problems.
- Troubleshooting and resolving IT issues.
- Installing, configuring and maintaining IT systems such as computers, printers and software.
- Monitoring system performance and ensuring the security of IT infrastructure.

PROJECTS

ATTENDANCE SYSTEM USING GPS AND FACIAL RECOGNITION (UNDERGRADUATE GROUP PROJECT)

- Collaborated with group members to develop an attendance system to monitor student attendance with global positioning system and facial recognition incorporated.

- The attendance system monitors attendance of students by checking if students are in the designated GPS location and further verifies with facial recognition if the picture captured matches with what was registered in the database.

TINDOG WEBSITE - RESPONSIVE WEB APP

- Developed a responsive TinDog website using HTML, CSS, and Bootstrap.
- Applied best practices in layout, responsiveness, and component styling.
- Hosted the project on GitHub Pages to demonstrate deployment skills.

PERSONAL PORTFOLIO WEBSITE

- Built a personal website to display my experience and what I love to do, using clean semantic HTML and custom CSS.

MAIL REMINDERS FOR UNREAD MAILS

- Developed a workflow using Microsoft power automation to send reminders to employees for unread mails containing certain keywords and subject to facilitate seamless workflows.
